Forecast for Tuesday 29 Sep 2020

Weather: Rather cloudy and damp overnight, however the rain should have ceased during the early hours, with cloud breaking and lifting clear of the peaks, soonest in the west to perhaps allow a grass frost in places here. Fine by day, with fair weather cloud developing in sunny spells, with a pleasant feel in sunshine given the light wind. Becoming cloudier from the west during the evening, with temperatures dropping quickly in the valleys.

Chance of cloud free mountain/hill tops above 600m: Soon improving to greater than 90 percent as cloud lifts clear of the peaks.

Visibility: Poor during the early hours, but soon improving to very good in fine conditions following.
